%100 Accessible Website

Latro Chemical

Corporate & Low Impact Website

Data transfer requires electricity which creates carbon emissions. This situation causes climate change. The low impact website that we created for Latro reduces data transfer up to 70% compared to a regular website and it reduces carbon footprint. With its neutral color palettes, bold typography and unorthodox layout design language, latro.com.tr has designed to be 100% accessible for low-spec devices, color-blinds and visually disabled people.

Trowas Concept Nasıl Doğdu?

Kağıt kartvizitler birçok iş alanında uzun süredir kullanılmaktadır. Biz Trowas ekibi olarak pandemi süreci öncesi bir ticaret fuarından 100'ün üzerinde kağıt kartvizitle döndükten ve bunun yarattığı sorunları fark ettikten sonra bu durumu düzeltmeye karar verdik.

Kağıt kartvizitler belki de akıllı telefonlar ve yenilikçi teknolojiler olmadan önce mantıklıydı. Şimdi dünyamız teknolojik olarak akıllı ve dijital bir şekilde geliyor. Bu, iletişim bilgilerimizi paylaşma şeklinizin de değişmesi gerektiği anlamına geliyor.

MARINOVER

The screenshot shows a browser window with the URL marinover.com. The website features a large hero image of a white yacht moving across the water. The navigation menu includes: Purchase, Charter, Become a Partner, Routes, Marinas, and a Call Center icon with the number 0 (850) 123 45 67. The main headline reads "Perfect Yachts and Boats for Every Moment" with the subtext "Best yacht charter and sales platform". Below this are two buttons: "Sale" and "Charter". At the bottom of the hero section is a search bar with filters for "Boat Type", "Brand", and "Length", followed by a "Search" button.
