Hello

WELCOME TO THE NEW GENERATION CONNECTION AND MEETING EXPERIENCE...

TROWAS digital business card is the new eco-friendly way to make new contacts and an impression.

With NFC and QR technology, it allows you to share your business card information in a contactless and memorable way.

What is Trowas Digital **Business Card**?

ONLY ONE DIGITAL CARD INSTEAD OF THOUSANDS OF BUSINESS CARD!

We developed the Trowas digital business card to change the people's habit of using disposable paper business cards and the way they interact in the business world.

With a digital business card which uses NFC Technology, you can instantly transfer your information to the people you meet, and make it easier for them to save your information quickly and permanently while protecting the environment.

The only business card you need is TROWAS!

How to Use Trowas Digital Business Card?

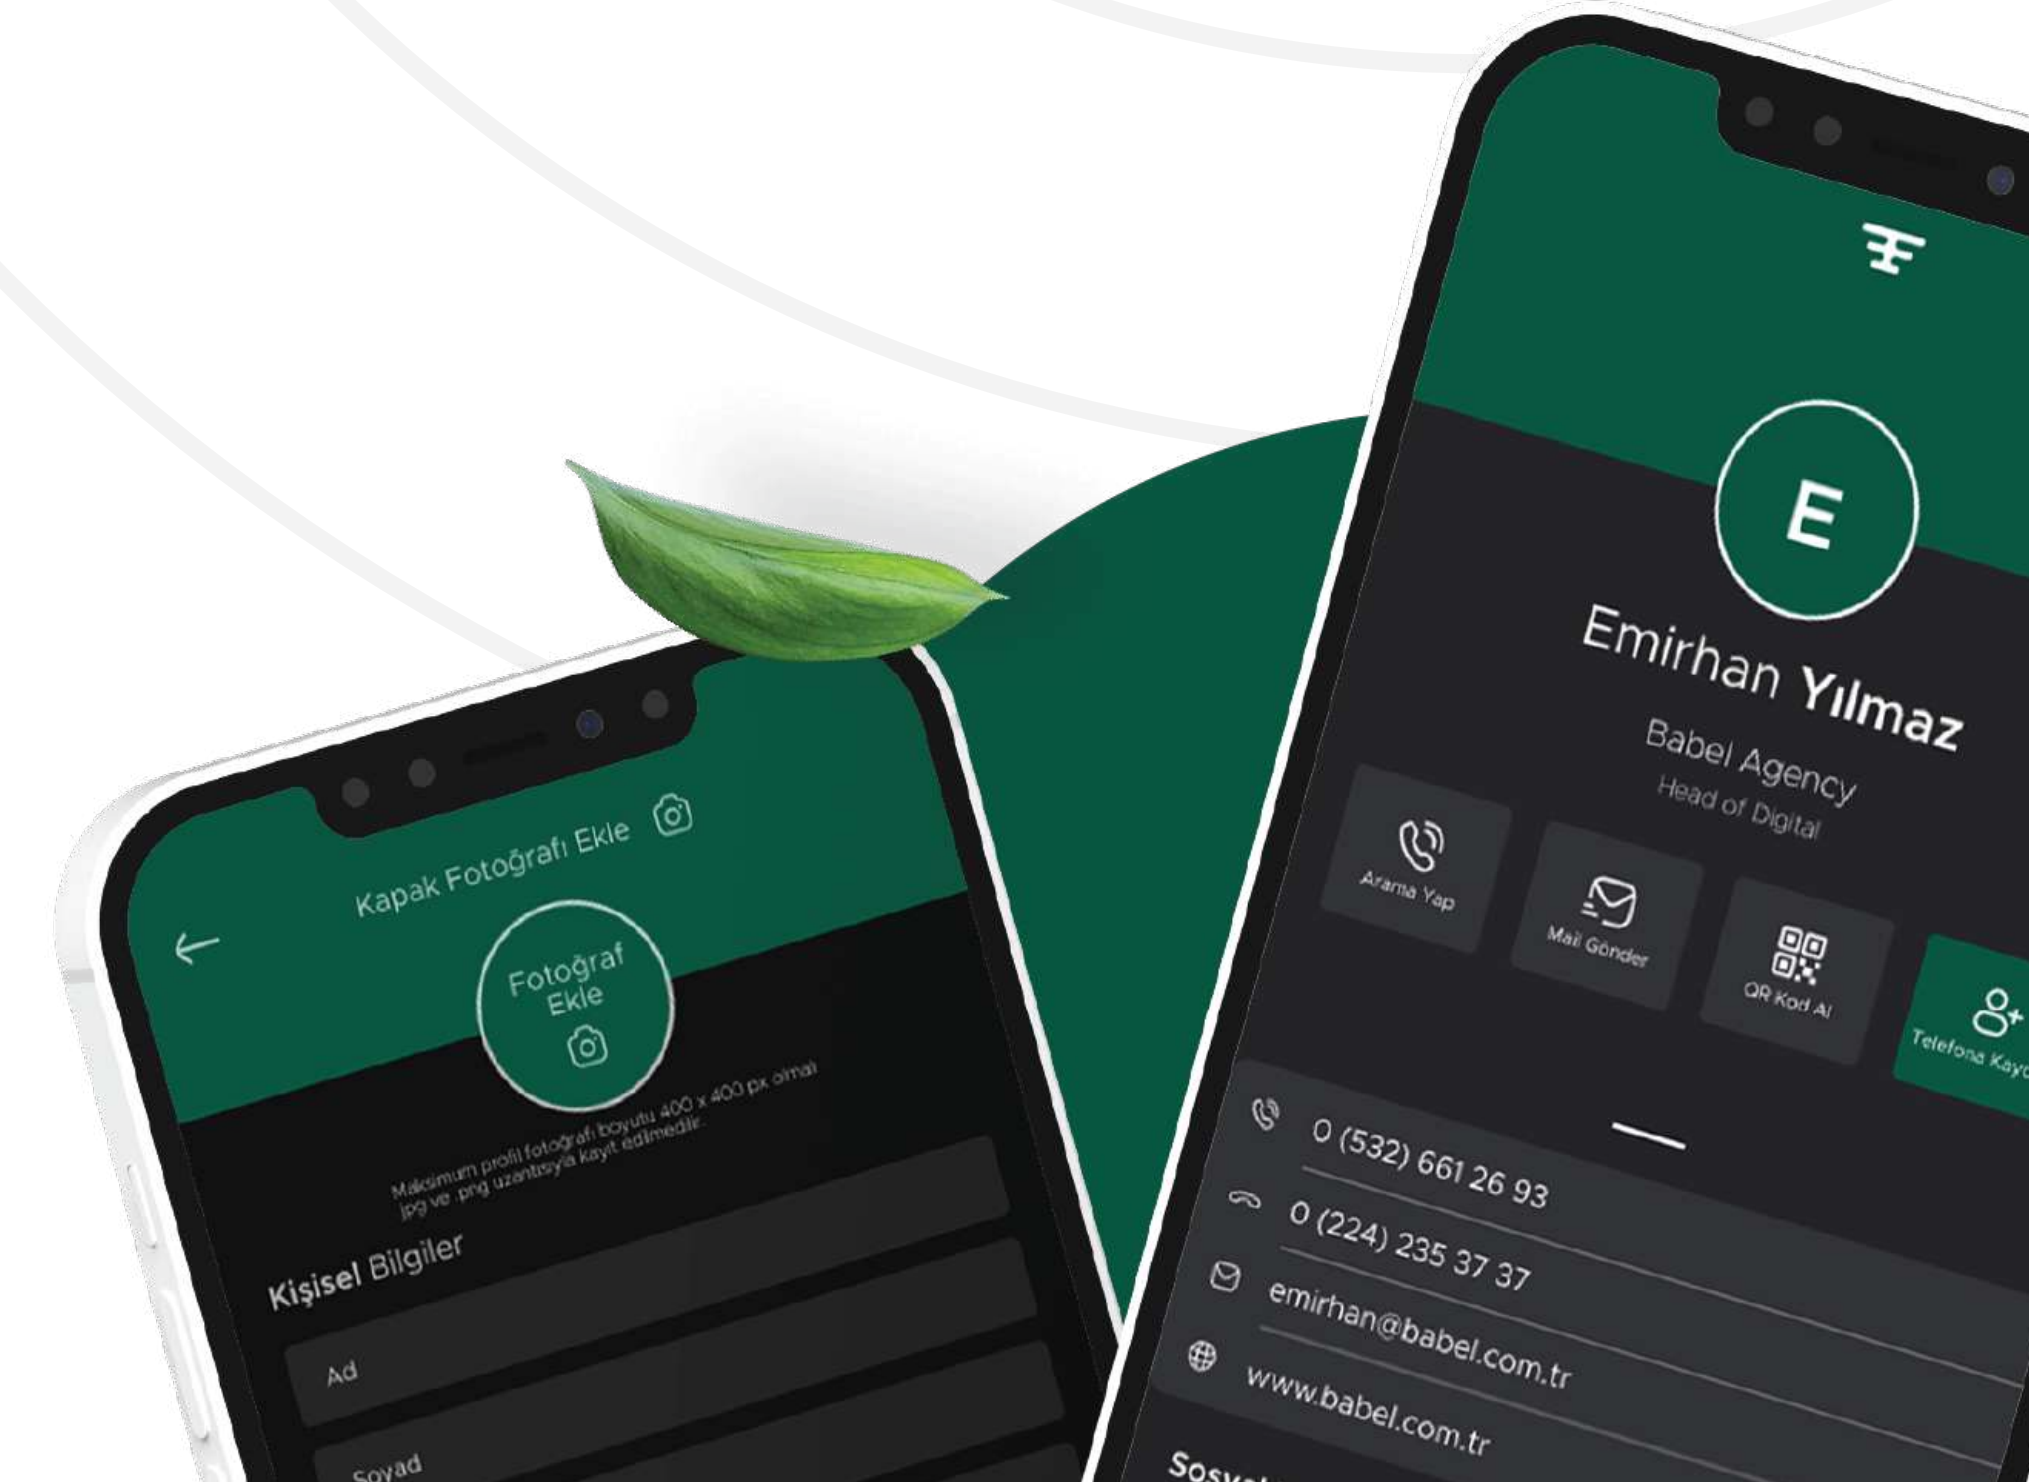

Share everything with one touch and show your difference.

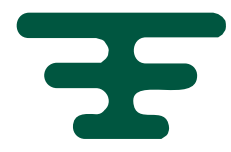

TROWAS Digital Business Card is available for all iPhone and Android smart phones.

It uses NFC and QR Technology to share your information with people you meet.

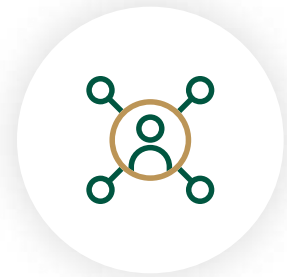

For old model smart phones, it will be enough to scan the QR code with the camera.

When I first heard about Trowas, I was very impressed. I turned to Trowas because of the problems I had with business cards during my business trips. Now I can transfer all my information to the other party with a single card. I strongly recommend.

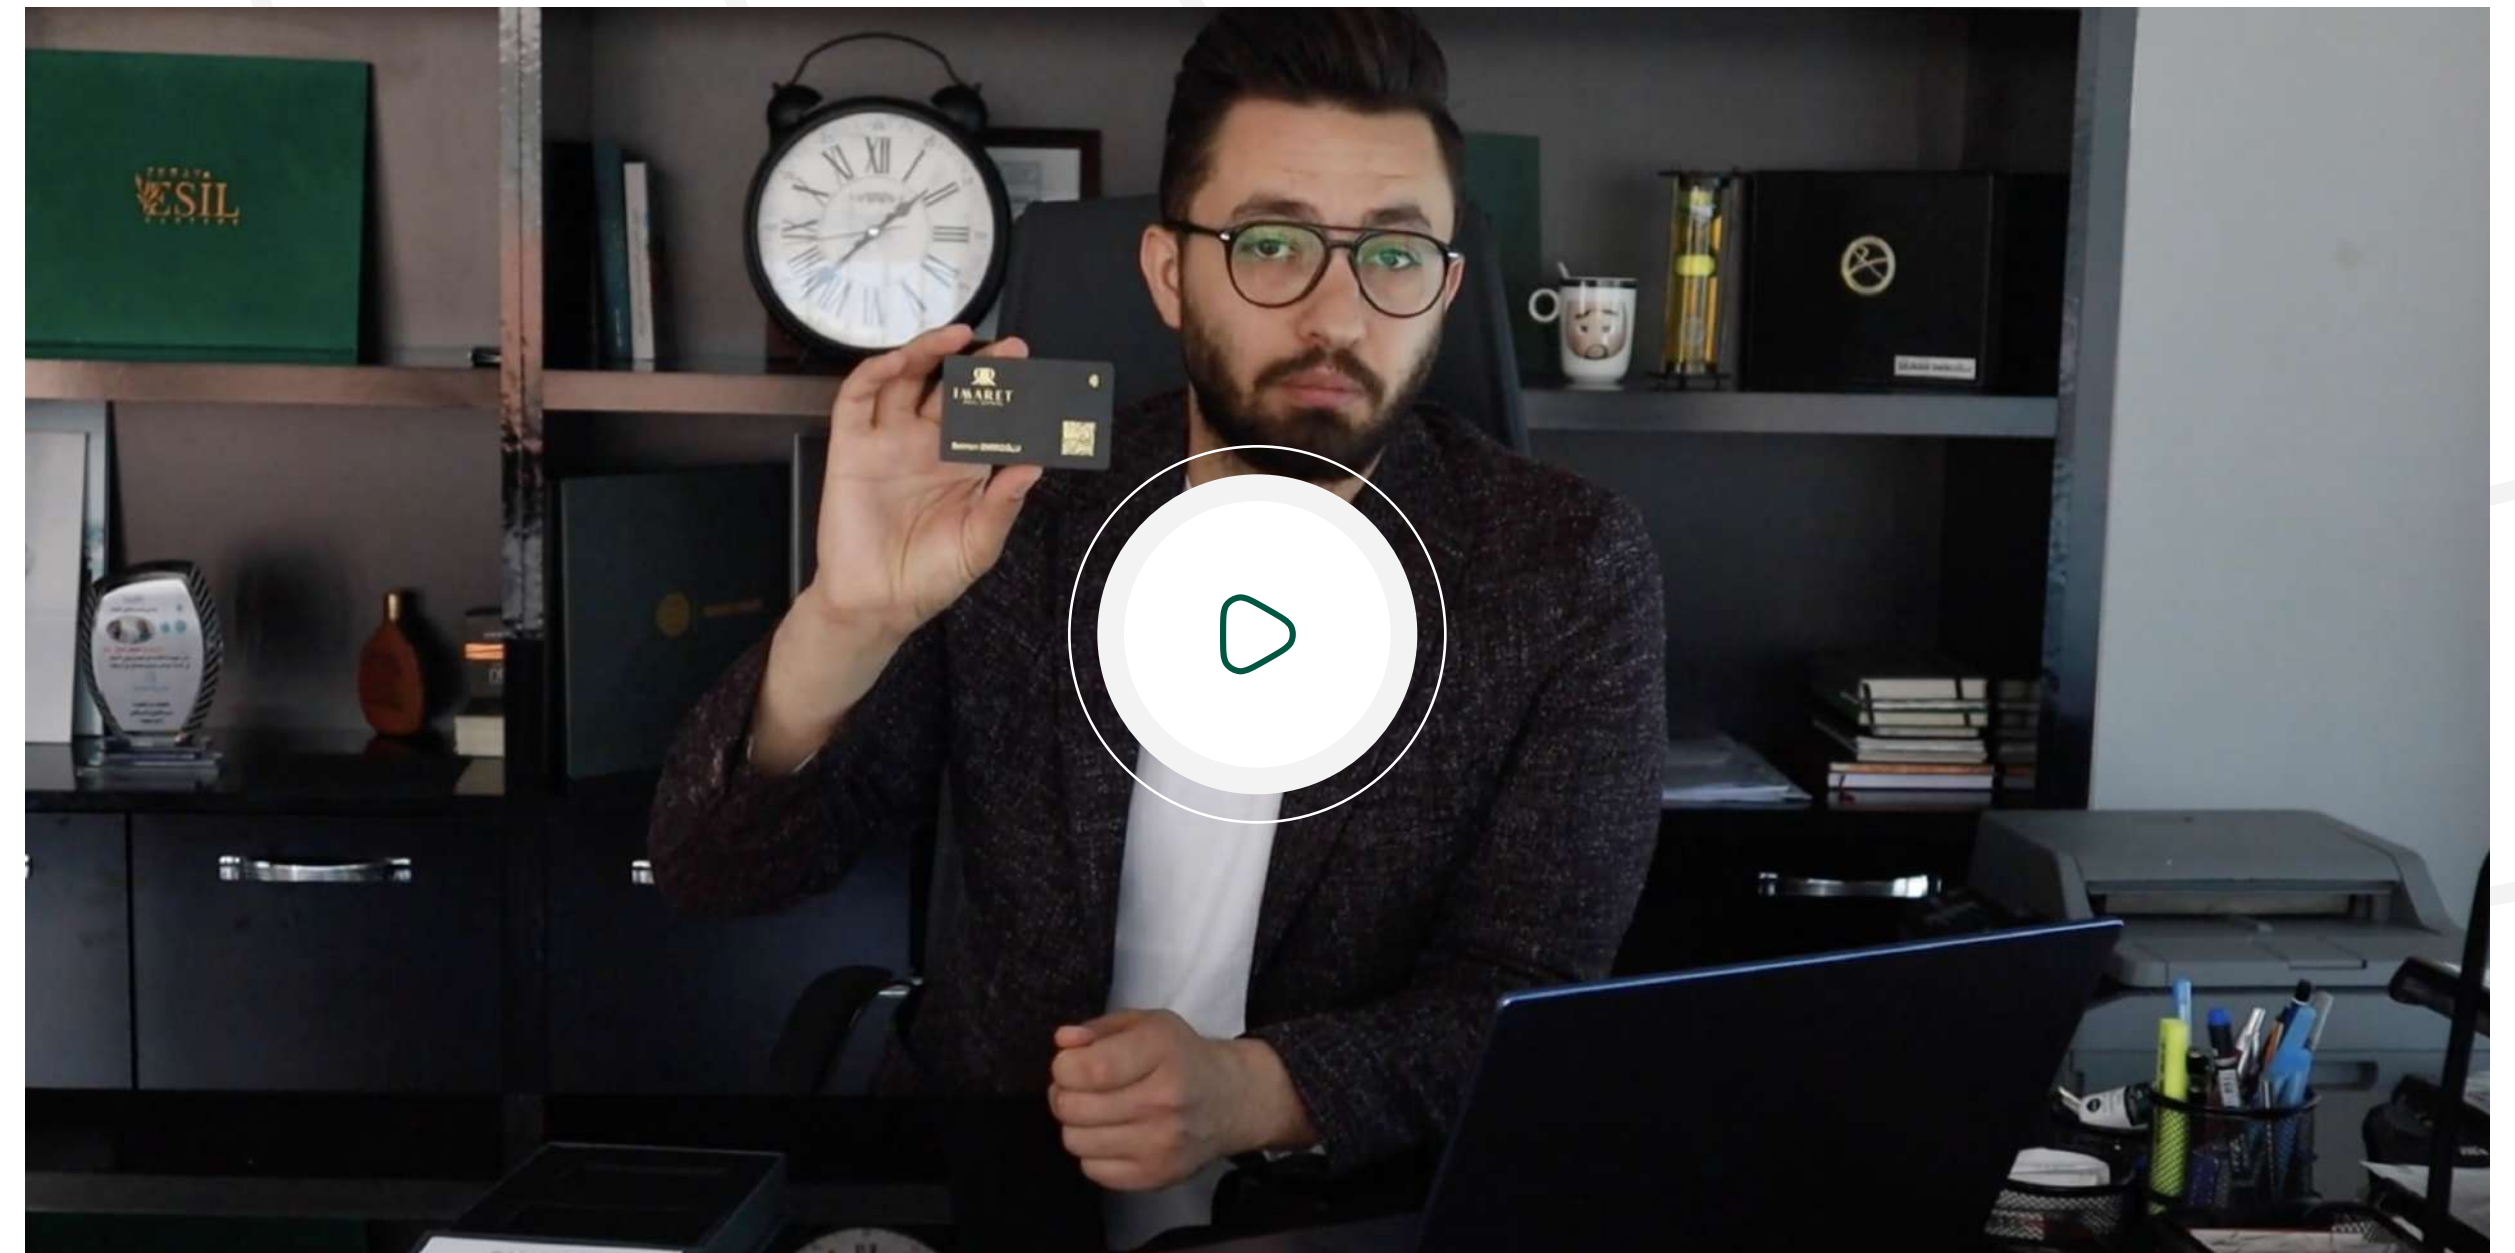

Harith Al-Ali

AL-ALI INŞAAT

It is a card that is always with me. Great card! It is easy to use and install. The business cards that I buy and lost after a while and the days that I give a business card to a customer who never called me again are gone. Since using Trowas digital business card, the amount of callbacks I've received from customers has at least doubled.
